*(Intern Software Trainee)*

July 2025 – October 2025

Connaught Place, New Delhi

- Actively contributing to various stages of the software development lifecycle.
- Collaborating with the Development team to write code.
- Gaining practical knowledge pf PHP, Laravel and practices.

## Projects

### Online Exam System

(October 2023)

- \* The Online Exam System helps educational institutes conduct secure and efficient examinations. It reduces manual effort by automating the checking of papers and preparation of marksheets.
- \* The system is based on Multiple-Choice Questions (MCQs), making it easy to evaluate students' performance quickly and accurately.
- \* It is developed using PHP for the front-end and MySQL for the back-end, ensuring smooth data management and a user-friendly interface.

### PrimeDigest: Your Personalized News Delivery Platform.

(May 2024)

- \* PrimeDigest delivers articles tailored to user preferences with a visually appealing and mobile-friendly design.
- \* It fetches and displays live news dynamically, enabling users to access the latest updates in real time.
- \* The platform allows users to quickly find specific news through efficient search and filtering options.
- \* It is built using HTML, CSS, and JavaScript, providing a fully client-side experience focused on responsive design and dynamic data handling.

### Neo-Floritech: Consulting, Marketing and Propagation of Exotic Flowers

(September 2025)

- \* Developed a custom admin panel from scratch using Laravel to provide complete content management for a corporate website.
- \* Created a CMS with full CRUD functionality to manage website sections such as Projects, Clients, and dynamic Pages.
- \* Built a central Settings module to control the site's appearance and information, including a dynamic theme editor, logo and favicon upload system, and forms for SEO and social media settings.
- \* Implemented a user and lead management system for handling admin accounts and customer inquiries from the contact form.
- \* Designed a responsive and user-friendly dashboard UI, ensuring compatibility across all devices and secured with strong authentication.
